Summary

Results-driven Computer Science student with a strong interest in AI, IOT, and data-driven applications. Skilled in Python, Machine Learning, and problem-solving, with hands-on experience in real-time projects. Passionate about building practical solutions and continuously learning new technologies..

Projects

Webcam-based Eye Blink Analysis for Screen-induced Strain

- Detected face and eyes using Python & OpenCV
- Used EAR to identify real-time blink events
- Analyzed blink rate to detect eye fatigue

Project 2 : Real-Time Industrial Safety Monitoring System

- Monitored gas, temperature, vibration, and flame sensors
- Detected unsafe conditions using Python logic
- Generated alerts for safety threshold breaches

Project 3 : AI Resume Screening System

- Predicted job roles using ML and NLP techniques
- Extracted skills and calculated resume score
- Built web app using Python and Streamlit

Education

B.E Computer Science and Engineering (Internet Of Things),

Saveetha Engineering College

CGPA - 7.6

HSC - 72 %

SSLC - 84%

2002 – 2026

Chennai

Skills

Technical : SQL , Java , Python , C , Machine learning.

NonTechnical: Teamwork & Collaboration, Problem-Solving Ability, Time Management , Adaptability , Quick Learner.

Internship

Machine Learning : Gradtwin

(FEB - MAY 2026)

Worked on Practical AI and ML Concept and Real Time Problem Solving.
Gained hand on Experience in data analysis and model development.

Certifications

Introduction To Programming With Matlab

Data Science Fundamentals With Python SQL

GPU Programming

Service Desk Operations
