EDUCATION

B.E. Computer Science and Engineering
(2022 - 2026)
Saveetha Engineering College, Chennai
CGPA – 8.3

HSC - 12th (2021-2022)
Alwin International Public School
Percentile – 91.6 %

SSLC - 10th (2019-2020)
Alwin International Public School
Percentile – 91 %

SKILLS

❖ Technical Skills:

Java | Python | SQL | HTML | CSS |
UI/UX Design | AI Tools | Prompt
Engineering | C | React | Node.js

❖ Tools:

MySQL | VS Code | Git/GitHub | Mongo
DB

❖ Soft Skills:

Problem-Solving | Leadership |
Adaptability | Data-Driven Decision
Making | Public Speaking

CERTIFICATIONS

- ❖ Microsoft Azure AI Engineer Associate
- ❖ Google Cloud Skills Boost - Career Readiness - Associate Cloud Engineer Path
- ❖ MongoDB Basics - ICT Academy Learnathon

LANGUAGES

❖ English ❖ Tamil

Roobesh Rao E D

Results-driven Computer Science enthusiast passionate about innovative technologies and user-focused solutions. Strong foundation in programming, design, and problem-solving. A versatile learner who embraces new tools and concepts to create impactful digital experiences and intuitive designs.

PROJECTS

Personalized Voice Assistant | Voice-Controlled Task Automation

- Built an interactive assistant inspired by JARVIS to execute tasks through voice commands.
- Performs actions like searching on Google or YouTube, opening apps, accessing subscriptions, and controlling media playback.
- Designed to simplify daily activities by enabling hands-free, personalized interactions.

Job & Networking Portal

- Built a full-stack web application inspired by LinkedIn, Upwork, and AngelList, enabling users to create profiles, post jobs, and connect with opportunities.
- Integrated secure user authentication with JWT, allowing personalized profile data (name, email, etc.) to be fetched and displayed after login.
- Developed a responsive React frontend with Tailwind CSS and a Node.js/Express backend, connected to MongoDB for persistent data storage.
- Implemented RESTful APIs for registration, login, job listings, and profile management, ensuring seamless data flow between client and server.
- Designed a clean, professional UI/UX with background imagery and intuitive navigation for improved user engagement.

Meal Match | Online Restaurant for Healthy Food

- Developed a health-focused food delivery application using Android Studio and no-code tools.
- Designed to offer nutritious meal options with an intuitive ordering process and clean, user-friendly interface.
- Streamlined the browsing and selection experience to promote healthier eating habits through convenient online access.

WORKSHOPS

Ethical Hacking Workshop 2022

- Attended a workshop on ethical hacking at Anna University during the first year of studies.
- Gained foundational knowledge in cybersecurity concepts, tools, and best practices.

Web Wizzards – Website Building Hackathon Workshop 2024

- Conducted a website building hackathon workshop at Saveetha Engineering College during the third year of studies.
- Guided participants to create websites within a set time frame, allowing the use of AI tools to boost creativity, functionality, and efficiency.

INTERNSHIP

UI/UX Certified Professional at RE-TECH SOLUTIONS

(June 2024 - July 2024)

Completed on-site certification covering the fundamentals of UI/UX design, including hands-on experience in prototyping and user-centered design practices.
